

How to use my server key?

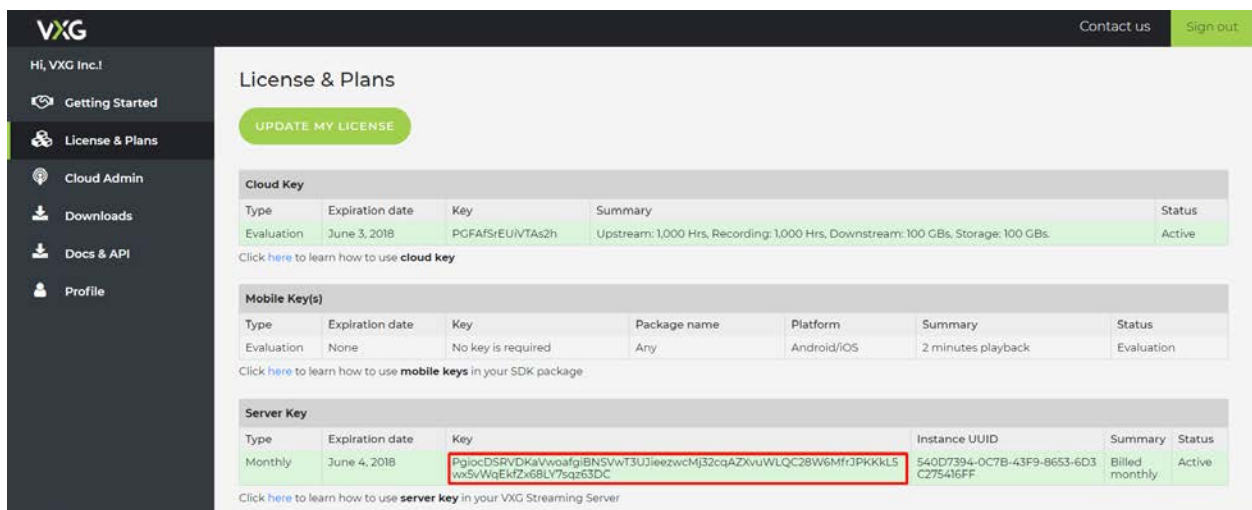

1. Open http://SERVER_IP_ADDRESS in browser

2. Go to License page and copy Instance UUID

3. Open [License & Plans](#) in your dashboard account and put the UUID in the corresponding field

4. Generate the license key

The screenshot shows the 'License & Plans' dashboard. It features a sidebar with navigation options: Getting Started, License & Plans, Cloud Admin, Downloads, Docs & API, and Profile. The main content area is titled 'License & Plans' and includes an 'UPDATE MY LICENSE' button. There are three sections: 'Cloud Key', 'Mobile Key(s)', and 'Server Key'. The 'Server Key' section contains a table with the following data:

Type	Expiration date	Key	Instance UUID	Summary	Status
Evaluation	None	Please set Instance UUID	<input type="button" value="SET"/>	Trial 30 days	Evaluation

The 'Instance UUID' column header and the 'SET' button are highlighted with a red box.

5. Copy the key and paste it your server webpage http://SERVER_IP_ADDRESS

The screenshot shows the 'License' configuration page in a browser window. The address bar shows '172.17.0.1/license='. The page title is 'License'. It displays the 'Instance UUID' as '540D7394-0C7B-43F9-8653-6D3C275416FF'. Below this is a 'License key' section with a text input field containing the placeholder text 'entry valid key here', which is highlighted with a red box. An 'APPLY' button is located at the bottom of the form.
